#### Who should use the checklist

Compliance with the Food Safety Standards is mandatory for all food businesses under the *Food Act 2006*. Penalties for non-compliance can be up to \$50,000. This checklist has been designed to assist food businesses make a self-assessment of their level of compliance with the Food Safety Standards. It has been developed in consultation with various industry representatives and is suitable for use by all businesses involved in the handling, storing, and sale of food in Queensland. This includes food retailers, food service and take-away food businesses, catering, manufacturing and transporters of food. In fact, any business selling food would benefit from using this self-assessment checklist to see how well they know your food business in terms of the food safety requirements.

Know your food business has been developed as a guide only. Advice specific to the food handling operations of your business and your compliance with the Food Safety Standards should always be obtained from your local government environmental health officer.

#### How to use the checklist

Each heading of the checklist references the relevant section of the Food Safety Standards. General information, definitions, explanation of terms and interpretive guidelines are available in *Safe Food Australia - A guide to the Food Safety Standards*. By answering the questions, you will learn about the food safety issues that an environmental health officer will be looking for during routine food hygiene inspections.

Reference and notes sections are included throughout this booklet so you may record notes about the information provided, which relate specifically to your food business. For a copy of the Food Safety Standards and further information resources, see Appendix 1. This checklist is a guide only and information specific to your food business' needs should be sought from an environmental health officer from your local government).

## Food safety practices and general requirements

#### Food safety supervisors

Under the *Food Act 2006*, every licensable food business in Queensland is required to have a food safety supervisor. New food businesses licensed after 22 February 2008 are required to notify their local government within 30 days of the issue of their licence. There are penalties for not having a food safety supervisor. The food safety supervisor need to undertaken specified competency unit/s with a Registered Training Organisation to operate as a food safety supervisor for a food business. See the food industry fact sheet 18 *'Food Safety Supervisor'* and fact sheet 19 *'Food Safety Supervisor Update'* for further information. These can be accessed from www.health.qld.gov.au/foodsafety.

1.	Does your food business have a nominated food safety supervisor?	Yes No	
2.	Has your food safety supervisor undertaken the specified competency unit/s for the food sector in which the food business operates?	Yes No	
3.	Have you notified your local government of the name and contact details of the nominated food safety supervisor?	Yes No	
sup	te: you must advise the local government within 14 days of a change in the contact details of the food sa pervisor.  od handling – skills and knowledge Food Safety Standard 3.2.2 (clause 3)	fety	
Wh har	ile food handlers are not required to undertake formal training courses, under Food Safety Standard 3.2 ndlers must have the skills and knowledge related to food safety and food hygiene related to the tasks the food business.		od
4.	Do you raise funds solely for community or charitable causes and not for personal financial gain?	Yes No	
5.	Do you handle food which is not potentially hazardous (see table below) or food which is consumed immediately after cooking (eg. sausage sizzle)?	Yes No	
	If you answered yes to Question 4 and Question 5, you are exempt from the skills and knowledge requ The Queensland Health publication <i>Food Safety for Fundraising</i> Events may also be a helpful food safe resource. See Appendix 1 for more details.		ent.
6.	The Queensland Health publication <i>Food Safety for Fundraising</i> Events may also be a helpful food safe resource. See Appendix 1 for more details.		ent.

#### How do I get 'skills and knowledge'?

- 'In-house' training, by the food safety supervisor for the food business
- Providing staff with accurate food safety and food hygiene information for them to read operating rules that set out the responsibilities of food handlers and their supervisors
- Operating rules that set out the responsibilities of food handlers and their supervisors
- Sending staff to food safety courses run by reputable organisations
- ▶ Hiring a qualified food safety consultant to run a course for the staff of the business
- ▶ Recruiting staff with formal industry-based training qualifications.

Note that formal training for food handlers is NOT a requirement of the Standard, except for food safety supervisors.

#### Receiving food Food Safety Standard 3.2.2 (clause 5)

Please tick all foods listed below that are used in your food business. Use this table as a reference as you complete the checklist as some questions relate to specific food types.

Potentia	lly hazardous foods		Non-potentially hazard	ous foods
Frozen fo	ods	Yes 🔲 No	Uncut fresh fruit	Yes □ No □
Chilled fo	oods	Yes 🔲 No	☐ Uncut fresh vegetables	Yes □ No □
Raw mea	t	Yes 🔲 No	Shelf-stable condiments	yes □ No □
Smallgoo	ods	Yes 🔲 No	☐ Bread/bakery products	Yes □ No □
Cooked n	neat products	Yes 🔲 No	Canned food	Yes □ No □
Ready-to-	-eat fish/seafood	Yes 🔲 No	Water	Yes □ No □
Dairy pro	ducts	Yes 🔲 No	Unpackaged snack food	Yes □ No □
Pasta sal	ads	Yes 🔲 No	Other (please describe)	
Eggs		Yes 🗌 No		
Other (pl	ease describe)			
7. Do yo	ou have a record of the	name and address	of each food supplier?	Yes □ No □
Cre	ate your own copy of a	supplier record li	st (see Template 3)	
8. Can	you demonstrate that f	ood received is ch	ecked that:	
			5°C or below or 60°C or above?	Yes 🗆
, ,	,			No $\square$
(b) frozen foods are frozen hard and do not show signs of prior thawing? $\gamma_{\epsilon}$				
N				
(c) packaging is clean and intact/undamaged?				
No $\square$				
(d) t	he name and address	of the manufacture	er or packer has been provided?*	Yes 🗆
				No 🗆
(e) t	he name of the food a	nd lot identificatio	n has been provided?*	Yes 🗆
				No 🗆
(g) (	date markings are with	in their 'Best Befo	e' or 'Use-By' date?*	Yes 🗆
				No 🗆
(h) t	here is no evidence of	physical, chemica	or pest contamination?	Yes 🗆
				No □
(i) a	all delivery vehicles are	e clean with no oth	er material in the same area as the fo	od? Yes □
				No 🗆
9. Do you always reject food that does not meet the requirements in Question 5?				
9. Do v	, ,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,			Yes L
9. Do y				No I
				No L
	ou record the details o	f food receipt chec	ks and rejected food (if any)?	No ∟ Yes □

<sup>\*</sup> For more information about food labelling requirements, see the Queensland Health publication 'Label Buster - a guide to the Food Standards Code labelling requirements for food businesses'

Develop your own incoming food checklist (see Template 4)

## **Food storage** *Food Safety Standard 3.2.2 (clause 6)*

11	. Is food stored so that:		
11.	(a) it is protected from contamination? (eg. covered, off the cool room floor)	Yes	П
	(a) it is protected from contamination (e.g. covered) on the cook room keep	No	Ħ
	(b) environmental conditions (eg. humidity, lighting) do not affect its safety or suitability?	Yes	
	(-,,,,,,,,,	No	
12.	. Is frozen food kept frozen solid?	Yes	П
	is nozen tood tepe nozen soud.	No	$\exists$
12	. Are potentially hazardous foods refrigerated below 5°C?		
15.	Are potentially hazardous roods remigerated below 5°C:	Yes No	H
Foo	ad processing Food Safaty Standard 2.2.2 (clause 7)		
гоо	od processing Food Safety Standard 3.2.2 (clause 7)		
14.	When processing food, do you:		
	(a) take steps to prevent the food being contaminated?	Yes	
		No	
	(b) use a step known to achieve microbiologically safe food (eg. thorough cooking)?	Yes	
		No	
15.	Do you minimise the time that food remains between 5°C and 60°C when processing?	Yes	П
_,,	, 20 ) 00 p. 00000	No	Ħ
16.	Can you demonstrate that potentially hazardous food is cooled:		
	(a) from 60°C to 21°C within two hours?	Yes	
		No	
	(b) from 21°C to 5°C within an additional four hours?	Yes	
		No	Ц
	If you answered <b>no</b> to either of these questions, can you demonstrate that an alternative process is	Yes	님
	used that does not affect the safety of the food?	No	Ш_
17.	. Is potentially hazardous food rapidly re-heated to 60°C (within 2 hrs)	Yes	
		No	
	If <b>no</b> , is an alternative heating process in place that does not affect the safety of the food?	Yes	
		No	
Foo	od display Food Safety Standard 3.2.2 (clause 8)		
12	. Is all displayed food adequately protected from contamination?		
10.	. is all displayed food adequately protected from contamination:	Yes	H
		No	ш_
19.	When unpackaged ready-to-eat food is displayed for self-service, do you provide:		
	(a) supervision so food that may be contaminated by customers is immediately removed from	Yes	
	display?	No	
	(b) separate serving utensils or an individual dispensing method for each food?	Yes	
		No	
***************************************	(c) protective barriers such as sneeze guards to prevent contamination?	Yes	
		No	
20.	. Is displayed potentially hazardous food kept at 5°C or below, or 60°C or above?	Yes	
- •	, , , , , , , , , , , , , , , , , , , ,	No	Ħ
	(a) If <b>no</b> , does this food remain between 5°C and 60°C for more than two hours?	Yes	
		No	
•	(b) If you answered <i>yes</i> , to 20(a) does this food remain between 5°C and 60°C for more than	Yes	
	four hours?	No	

If you answered yes to Question 20(b) this is a dangerous practice and must change! Refer to the Food Standards Australia New Zealand publication *Safe Food Australia - A guide to the Food Safety Standards*, 'The use of time as a control for potentially hazardous food' pages 183-185 (see Appendix 1 for how to obtain a copy).

21. If food is meant to be displayed frozen, is it displayed frozen?	Yes □ No □
Food packaging Food Safety Standard 3.2.2 (clause 9)	
22. Is all food packaging material:	
(a) suitable for food contact purposes and unlikely to contaminate food?	Yes □ No □
(b) protected from contamination during storage?	Yes 🗆 No 🗆
23. Is food protected from being contaminated during the packaging process?	Yes  No
Food transportation Food Safety Standard 3.2.2 (clause 10)	
24. When you transport food, is it:	
(a) protected from contamination?	Yes □ No □
(b) kept frozen solid (if it is potentially hazardous)?	Yes 🗆
(c) kept at 5°C or below, or 60°C or above (if it is potentially hazardous)?	Yes  No
(d) If <b>no</b> , can you demonstrate that keeping this food between 5°C and 60°C during transportation does not adversely affect the microbiological safety of the food?	Yes ☐ No ☐
Food disposal Food Safety Standard 3.2.2 (clause 11)	
<ul><li>25. Do you ensure that food for disposal is:</li><li>(a) kept separate from other food until it can be disposed?</li></ul>	Yes 🗆
	No $\square$
(b) clearly identified as food for disposal?	Yes □ No □
Food recall Food Safety Standard 3.2.2 (clause 12)	
26. Do you wholesale, manufacture or import food?	Yes □ No □
If <b>yes</b> , continue. If <b>no</b> , go to Question 29.	
27. Do you have a food recall system?	Yes □ No □
If <b>no</b> , you must develop a system to retrieve food in the event of unsafe food being released into the food supply.	
Get assistance with developing your own recall plan by referring to the 'Food Industry Recall Proedition' from FSANZ. See Appendix 1 for details on how to obtain a copy.	otocol, 5th
28. If you answered <i>yes</i> to Question 27, is this recall system:	
▶ (a) a written document available on request?	Yes □ No □
▶ (b) used when recalling unsafe food?	Yes ☐

# Health and hygiene requirements

General duties of food businesses Food Safety Standard 3.2.2 (clause 18)		
29. Have all food handlers been informed of their health and hygiene obligations?	Yes No	
30. Do you ensure any information provided by a food handler is not disclosed to another person, except the business proprietor or an authorised person under the <i>Food Act 2006</i> ?	Yes No	
31. Do you ensure that food handlers and other persons (eg. visitors, tradespeople) do not:		
(a) contaminate food?	Yes No	
(b) have unnecessary contact with ready-to-eat food?	Yes No	
(c) spit, smoke or use tobacco or similar products, where food or surfaces likely to come in contact with food, are exposed or unprotected?	Yes No	
Go to Templates 5 and 6 for assistance with advising staff of their legal obligations. You may also we develop a policy for visitors or maintenance people that may enter your food preparation area from time to ensure that they do not contaminate the food.		
Health of persons who handle food – duties of food businesses Food Safety Standard 3.2.2 (clause 16)		
The health and hygiene requirements that food businesses must ensure that food handlers comply with, a Clauses 13 -15 of Food Safety Standard 3.2.2 (see Template 5).	re in	
32. Can you demonstrate that food handlers do not handle food if they are:		
(a) known to be suffering from a food-borne illness or are a carrier of a food-borne illness	Yes No	
or (b) known or reasonably suspected to have a symptom of a food-borne illness, and where there is a reasonable likelihood that they will contaminate food?	Yes No	
33. If a person is excluded from handling food, are they permitted to resume food-handling activities only on medical consent?	Yes No	
34. In relation to Questions 29 and 30:		
(a) do you have a documented food handling exclusion policy?	Yes No	
(b) have your employees been advised of their relevant legal obligations?	Yes	

35.	. Do you ensure that a person, known or reasonably suspected to be suffering from a condition, which i transmissible via food and who continues to engage in food handling activities for the business:	S	
	(a) takes all practicable measures to prevent food contamination?	Yes No	
	(b) has been advised of their relevant legal obligations?	Yes No	
P	For an example food handler exclusion policy, see Appendix 3. For employees' legal obligations, see Template 5.		
Ну	rgiene of food handlers – duties of food businesses Food Safety Standard 3.2.2 (clause 3	17)	
36.	. Do you maintain each hand-washing facility with:		
	(a) a constant supply of warm (between 25°C and 45°C), running water?	Yes No	
	(b) soap / liquid dispensing detergent?	Yes No	
•••••	(c) single use towels or other method for effectively drying hands?	Yes No	
	(d) a bin for used towels, if towels are used?	Yes No	
37	7. Are hand-wash facilities used for washing hands only?	Yes No	
38	3. Does your food business:		
_	(a) only operate from temporary food premises or a domestic dwelling?	Yes No	
P	If you answered <i>yes</i> to Question 38, you may apply to your local government for an exemption to t requirement for dedicated, permanent hand washing facilities. Also, temporary food premises and businesses that operate from a domestic dwelling will need to be licensed with the local government contact your local government environmental health officer to find out more.	d food	

# Cleaning, sanitising and maintenance

Cleanliness Food Safety Standard 3.2.2 (clause 19)		
39. Do you maintain the food premises in a clean condition at all times free of dirt, grease and other visible matter?	Yes No	
40. Are all fixtures, fittings and equipment, clean and sanitary, free from food waste, dirt, grease and other visible matter?	Yes No	
41. Are all food transport vehicles kept clean and sanitary at all times?	Yes No	
Cleaning and sanitising of specific equipment Food Safety Standard 3.2.2 (clause 20)		
42. Do you ensure that all food contact surfaces (eg. chopping boards, preparation surfaces, processing equipment) are clean and sanitary at all times?	Yes No	
43. Do you ensure that eating and drinking utensils are clean and sanitised immediately before and after each use?	Yes No	
Develop your own cleaning and sanitising program, see Appendix 4.  Maintenance Food Safety Standard 3.2.2 (clause 21)		
44. Is the food premises in a good state of repair and working order, having regard to the use of these areas?	Yes No	
45. Are all fixtures, fittings and equipment in the food premises, in a good state of repair and working order, having regard to their use?	Yes No	
46. Are all food transport vehicles in a good state of repair and working order?	Yes No	
47. Are chipped, broken or cracked eating or drinking utensils disposed of?	Yes	

## Other requirements

Temperature measuring devices Food Safety Standard 3.2.2 (clause 22)	
48. Do you have a probe thermometer that:	
(a) is readily accessible to food handlers?	Yes □ No □
(b) measures the internal temperature of potentially hazardous food to an accuracy of +/- 1°C?	Yes 🗌 No 🔲
49. If <i>yes</i> , is it used to regularly monitor temperature of potentially hazardous food?	Yes 🗌 No 🗆
All food businesses handling potentially hazardous foods must have a temperature measuring thermometer) to measure the temperatures of food.	device (ie. a
50. Is the probe attachment cleaned and sanitised before and after each use?	Yes  No
51. Do you routinely check the accuracy of the thermometer(s)?	Yes 🗌 No 🗆
Single use items Food Safety Standard 3.2.2 (clause 23)	
Single use items are intended by the manufacturer to be used only once in connection with food handle include disposable gloves, plastic drinking straws and plastic cutlery, disposable wrappers and package.	- ,
52. Do you discard single use items that have been used or become contaminated?	Yes  No
53. Are single use items adequately protected from contamination prior to use?	Yes 🗆 No 🗆

#### Animals and pests Food Safety Standard 3.2.2 (clause 24)

54. Do you:			
(a) exclude live animals (except fish, shellfish or crustaceans) in food handling areas?		Yes No	
(b) permit only assistance animals (eg. guide dogs) in designated customer areas?		Yes No	
(c) prevent pests entering the food premises?		Yes No	
(d) undertake pest control to eradicate and prevent the harbourage of pests?		Yes No	
Note when last pest control was undertaken and when next service is due.			
Last service: / / Next service due:	/	/	

# Congratulations!

You have now completed the self-assessment guide.

Please keep this completed document for your records and action any areas of improvement that you have identified to make your food business safer.

It is recommended that you repeat this checklist at least every 12 months or when circumstances in your food business change (eg. remodelling or change of management/staff) or a change in food practices.

## Where to go for more information and assistance

For more information, there are a number of fact sheets available from the Food Standards Australia New Zealand (FSANZ) website: www.foodstandards.gov.au and from the Queensland Health website: www.health.qld.gov.au/foodsafety. You can also contact your local government environmental health officer (contact details can be found in the White Pages), or your local Queensland Health Public Health Unit (contact details below).

Public Health Unit	Phone number
Brisbane Northside	3624 1111
Brisbane Southside	3000 9148
Bundaberg/ Wide Bay	4150 2780
Gold Coast	5509 7222
Ipswich/ West Moreton	3413 1200

Public Health Unit	Phone number
Mackay	4885 6614
Sunshine Coast	5409 6600
Toowoomba/ Darling Downs	4631 9888
Townsville	4753 9000

#### *Industry contacts*

A range of food industry bodies may be able to provide you with information relating to how to comply with Queensland's food legislation.

For example:

Australian Hotels Association (Qld)

**Australian Industry Group** 

**Environmental Health Australia** 

**Baking Industry Association of Queensland** 

Clubs Queensland

Food and Beverage Industry

Food Industries Association (Qld)

Queensland Hotels Association

Restaurant and Catering Association (Qld)

Retailers Association of Queensland.

Contact details for these organisations can be found in the White Pages.

## Food handler policies

Food businesses have specific responsibilities relating to the health of people who handle food, the provision of hand washing facilities, advising food handlers of their health and hygiene obligations and the privacy of food handlers.

The following policies are samples that may be used and adapted to meet the needs of your business.

#### The health of persons who handle food and preventing food contamination

It is very important that people who may be suffering from or carrying certain illnesses, or suffering from some conditions do not handle food or food contact surfaces. This is particularly important if they are likely to contaminate food while they are working.

#### Sample policy on food handler exclusion

A food handler has:	The food handler will:
One or more of the following symptoms of food-borne illness:  Diarrhoea  Vomiting  Sore throat with fever  Fever  Jaundice	<ol> <li>Immediately inform the supervisor</li> <li>Seek medical attention</li> <li>Not return to work until they have been symptom-free for 48hrs</li> </ol>
Been diagnosed with any of the following food-borne diseases:  Hepatitis A  Norovirus  Typhoid fever Shigellosis Staphylococcal or Streptococcal disease	<ol> <li>Cease all contact with food and food contact surfaces</li> <li>Not return to food handling duties until medical clearance is provided</li> </ol>
<ul> <li>An exposed wound or cut</li> <li>Infected skin sore</li> <li>Any discharge from their ears, nose or eyes</li> </ul>	<ol> <li>Cover with a bandage and highly visible waterproof covering.</li> <li>Take medication to stop any nasal or other discharge that may contaminate the food.</li> </ol>

The Manager/Supervisor will not disclose any of the above medical information to anyone without the consent of the food handler, with the exception of the proprietor of the business or an authorised person under the Act (Environmental Health Officer). This business will not use this information for any purpose other than to protect food from contamination.

#### Telling food handlers about their health and hygiene responsibilities

Food businesses must tell all of their food handlers about their health and hygiene requirements.

Sample policy on food handler exclusion

All new food handlers will have completed the food handler induction program within one month of commencing work with this business. The food handler induction program will consist of:

- watching a 20 minute food handler video
- reading and understanding the legal obligations of food handlers
- reading and understanding the FSANZ booklet on temperature control.

The requirements are set out in *Standard 3.2.2. Food Safety Practices and General Requirements*. For further information on these requirements, see the FSANZ fact sheet *Food Safety Standards - Health and hygiene - Responsibilities of food handlers*. The requirements are designed to ensure that food handlers do whatever is reasonable to make sure that they do not contaminate food.

## Information on cleaning and sanitising

Food businesses must maintain their premises at a high standard of cleanliness. This includes the fixtures, fittings and equipment, as well as those parts of vehicles that are used to transport food. The standard of cleanliness must ensure that there is no accumulation of garbage, recycled matter, food waste, dirt, grease or other visible matter.

Processing fresh food using dirty equipment will transfer contamination and possibly harmful bacteria. Food utensils and equipment must be cleaned and sanitised before each use and between use for raw food and ready-to-eat food. Equipment and utensils may also need to be cleaned and sanitised if they have been used for long periods to prepare or process potentially hazardous foods, eg. meat slicers. The surfaces that food may come in contact with must also be cleaned and sanitised.

It is important to understand that cleaning and sanitising are separate procedures.

**Clean** means clean to the touch and free from any dirt, dust or food particles that you can see and must not have smell. Cleaning is the removal of these particles and smells.

**Sanitising** means to apply heat and/or food-grade chemicals (or other processes) to a surface so that the number of bacteria on the surface is reduced to a level that is safe for food to contact.

Cleaning and sanitising should usually be done as separate processes. A surface needs to be thoroughly cleaned before it is sanitised, as sanitisers are usually unlikely to be effective in the presence of food residues and detergents.

#### Planning for cleaning

When planning your cleaning and sanitising program, remember the following points:

- > Start at the back and work towards the front. Start high and work your way down
- ▶ Single-use paper towels are better than cloths. If you use cloths, they must be washed in hot water and allowed to dry after every use
- Use the right size brush or cleaning tool for each task
- ▶ Use food-grade detergents and sanitisers, always following the manufacturers instructions
- ▶ Clean as you go
- ▶ Keep cleaning chemicals away from food storage areas
- Disassemble equipment such as the meat slicer before starting to clean it
- A dishwasher will sanitise most small equipment, cutlery, plates and glasses
- ▶ Drip-dry equipment or use clean tea towels where this is not possible
- ▶ Educate staff on correct cleaning and sanitising procedures
- Provide regular checks on cleaning carried out and instruct staff where required
- Make sure the containers for garbage and recycled matter are large enough for the amount of waste you produce and are capable of being easily cleaned
- Ensure that all equipment used for cleaning (eg. mops, buckets, cloths, brooms etc.) are kept clean.

#### Cleaning procedures and records

A *cleaning procedure* is a set of written instructions that describe everything that needs to be done to keep your business clean. It sets out the tasks of cleaning and sanitising, how often each job needs to be done, how it should be done, and who should do it.

A cleaning record is a way of documenting that the cleaning tasks have been done by the responsible personnel.

#### What does a cleaning procedure and record look like?

Begin at the back of your premises and write down every piece of equipment that needs to be cleaned as you walk towards the front.

Then, write down how you will clean that piece of equipment, how often you will clean it, what materials and chemicals will be used and who will do the cleaning. These instructions will be noted on the *cleaning procedure*. An example is provided on the next page. Templates of both the cleaning procedure and cleaning record are also provided (Templates 1 and 2).

#### Six steps to proper cleaning

- 1. **Pre-clean:** Scrape, wipe or sweep away food scraps and rinse with water.
- 2. Wash: Use hot water and detergent to take off any grease and dirt. Soak if needed.
- 3. Rinse: Rinse off any loose dirt or detergent foam.
- 4. Sanitise: Use a sanitiser to kill any remaining germs.
- 5. Final rinse: Wash off sanitiser. (read sanitiser's instructions to see if you need to do this).
- 6. **Dry**: Allow to drip-dry.

#### How to sanitise

Most food poisoning bacteria are killed if they are exposed to chemical sanitisers, heat, or a combination of both.

#### To sanitise:

- > soak items in water at 77°C for 30 seconds; or
- ▶ soak items in water which contains bleach. The water temperature required will vary with the concentration of chlorine. The table below shows the amount of bleach required and the corresponding water temperature to make sanitising solutions.

#### How much water? How much bleach?

	Using househ	old bleach (4%	chlorine)	Using comme	rcial bleach (10	% chlorine)
Concentration required	25 ppm	50 ppm	100 ppm	25 ppm	50 ppm	100 ppm
Min. water temperature	49°C	38°C	13°C	49°C	38°C	13°C
5 Litres	3.12 mL	6.25 mL	12.5 mL	1.25 mL	2.5 mL	5mL
10 Litres	6.25 mL	12.5 mL	25 mL	2.5 mL	5 mL	10 mL
15 Litres	31.25 mL	62.5 mL	125 mL	12.5 mL	25 mL	50 mL

#### Template 3 Supplier record list

Ref.	Supplier Name	Address	Phone/Fax/Mobile	Foods Provided
Example: A	Joe's Meat Supplies	17 Johnson Street, Fortitude Valley	Ph: 3000 4455 Fax: 3000 5533 Mobile: 0404 321 321	Lunch meats (ham etc) Fresh chickens Meat pies

## TIP

#### Check/ask suppliers about the following:

- ✓ Presence of food allergens and other substances that may require declarations (eg. unpasteurised egg products, nuts, crustacea, genetically modified ingredients— see the Queensland Health publication Label Buster for more information)
- ✓ Potentially hazardous foods are maintained at 5°C or below, or 60°C or above
- ✓ Licensed with the local government
- ✓ The name and address of the manufacturer or packer
- ✓ The name of the food and lot identification
- ✓ Date markings are within their 'Best Before' or 'Use-By' date
- ✓ Evidence of physical, chemical or pest contamination
- Clean delivery vehicle with no other material in the same area as the food.

#### **Template 4** *Incoming food checklist*

Only accept food in good condition. Check deliveries to ensure that:

- ✓ Frozen food is hard (completely frozen and not showing signs of prior thawing)
- ✓ Chilled food is 5°C or below
- ✓ Hot food is 60°C or above
- ✓ Food is within 'Best Before' date or 'Use By' date
- ✓ All packaging is intact
- ✓ Food shows no signs of contamination from pests, chemicals or foreign objects (glass, dirt etc).

Date	Product	Supplier Ref.	Temperature	Action Taken	Checked By
1/1/03	Frozen Chickens	A	8•C (Chickens defrosted)	Returned to supplier	Jim

#### **Template 5** Checklist for food handlers

As a food handler, you have certain legal obligations under the Food Safety Standards. These requirements are to help protect both your customers and yourself from potential food borne illness. Please complete this checklist within one week of starting work with this food business. If you have any questions, ask the supervisor or contact the local government environmental health officer for advice.

Place your initials in each box once you have understood each section. It is important that you understand these obligations, so please ask for clarification from your supervisor if you require assistance.

Legal	obligations		
1.	As a food handler, I must take all reasonable mointo contact with food in a way that is likely to c	easures not to handle food or surfaces likely to come compromise the safety and suitability of food.	
P	This means you should not sit or lie on prepara contamination, for example, by not preparing s meat.	tion benches. It also refers to preventing cross alad items on the same cutting board used for cutting r	aw
2.		otom that indicates that I may be suffering from a om a foodborne illness, or that I am a carrier of a	
•••••	✓ report this to my supervisor		
	✓ not engage in any handling of food where the result of the disease or condition	nere is a likelihood that I might contaminate food as a	
	✓ take all practicable measures to prevent food or condition if my supervisor allows me to defect the condition of the c	d from being contaminated as a result of the illness o other work on the food premises	
	Symptoms of foodborne illness include:  ✓ Diarrhoea  ✓ Vomiting  ✓ Sore throat with fever  ✓ Fever  ✓ Jaundice	<ul> <li>A condition means:</li> <li>✓ an infected skin lesion (eg. infected skin sore, boil, acne, cut or abrasion)</li> <li>✓ any discharge from the ear, eye or nose due to an infection (eg. colds, flu, styes or other eye infections)</li> </ul>	
3.	As a food handler, I must notify my supervisor is food that I have handled.	f I know or suspect that I may have contaminated any	

If you drop food on the floor, cough or sneeze over food or contaminate the food in another way, report this to your supervisor. The food should then be disposed of and any required cleaning, including hand washing, should be undertaken before resuming food handling activities.

	✓ take all practicable measures to ensure my body, anything from my body, and anything I am wearing does not contaminate food or surfaces likely to come into contact with food	
TIP	This means that you should remove any jewellery, including rings, bracelets, earrings, facial rings or other jewellery that may fall off into food. If you do not want to remove the jewellery or are unable to, it should be covered with a brightly coloured protective bandage.	
	✓ take all practicable measures to prevent unnecessary contact with ready-to-eat food	
	✓ ensure my outer clothing is of a level of cleanliness that is appropriate for the handling of food that I am involved with	
TIP	You must always wear clean clothes to work and any protective clothing such as caps, aprons or glove should only be worn in the food preparation area, never when leaving the premises to have a break, we smoking or when going to the toilet.	
	✓ cover any exposed bandages and dressings with highly visible waterproof coverings	
	✓ not eat over unprotected food or surfaces likely to come into contact with food	
	$\checkmark$ not sneeze, blow or cough over unprotected food or surfaces likely to come into contact with food	
	✓ not spit, smoke or use tobacco or similar preparations in areas in which food is handled	
	✓ use the designated toilet facilities	
6.	As a food handler, I must wash my hands in the manner described below, when engaging in a food handli operation that involves unprotected food or surfaces likely to come into contact with food:	ng
******	✓ before commencing or re-commencing handling food	
	immediately after smoking, coughing, sneezing, using a handkerchief or disposable tissue, eating, drinking or using tobacco or similar substances	
	✓ after touching my hair, scalp or a body opening	
TIP	Hand washing is an essential step to prevent food poisoning. A proper hand washing technique means I will:	
	use the hand washing facilities provided	
	$^{ extstyle  e$	
*******	$^{ extstyle  e$	
	thoroughly dry hands on single-use towels or in another way that is not likely to transfer pathogens to my hands	

### Template 6 Food handler training log

Use this template to record that all food handlers in your premises have read and understood their legal obligations outlined in Template 3 (checklist for food handlers).

Note: It is recommended that all new staff should complete the 'checklist for food handlers' within one week of commencing employment.

Name of food handler	Date started employment	Date completed checklist for food handlers (Template 3)	Name of supervisor reviewing checklist for food handlers
